## **DETAILED ACTION**

### ***Reissue Applications***

1. The reissue oath/declaration filed with this application is defective (see 37 CFR 1.175 and MPEP § 1414) because of the following:

MPEP 1417 requires that a foreign priority claim be repeated in a reissue application, even if made correctly in the original patent. Although Applicant has submitted foreign priority papers, there is no claim for the foreign priority. Applicant is required to make such a claim in the instant reissue application.

A certificate of correction is also present in the original patent. A certificate of correction becomes part of the original patent; but since the original patent is being replaced by the reissue patent when we issue the original patent, therefore, the changes made on the certificate of correction should be incorporated into the reissue application. Applicant is therefore required to present a new Abstract that reads correctly in accordance with the certificate of correction. Applicant is reminded that THE CHANGES ARE NOT TO BE REFLECTED BY BRACKETING OR UNDERLINING, because they are not actually changes (since the certificate of correction is part of the original patent text).

2. In accordance with 37 CFR 1.175(b)(1), a supplemental reissue oath/declaration under 37 CFR 1.175(b)(1) must be received before this reissue application can be allowed.

Claims 1-6 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251. See 37 CFR 1.175. The nature of the defect is set forth above.

Art Unit: 3726

Receipt of an appropriate supplemental oath/declaration under 37 CFR

1.175(b)(1) will overcome this rejection under 35 U.S.C. 251. An example of acceptable language to be used in the supplemental oath/declaration is as follows:

"Every error in the patent which was corrected in the present reissue application, and is not covered by a prior oath/declaration submitted in this application, arose without any deceptive intention on the part of the applicant."

3. The original patent, or a statement as to loss or inaccessibility of the original patent, must be received before this reissue application can be allowed. See 37 CFR 1.178.

4. In order to ensure full consideration of any amendments, affidavits or declarations, or other documents as evidence of patentability, such documents must be submitted in response to this Office action. Submissions after the next Office action, which is intended to be a final action, will be governed by the requirements of 37 CFR 1.116, which will be strictly enforced.
